

Project Sheet **Wallace & Co**

Location
Putney, London

Timing 3 weeks

Budget £40,000

ecsec were delighted to win this complete refurbishment and bar fit-out contract following a recommendation from Colin Clark, Head of Operations, at a recently completed project at Smith's of Smithfield. From drawings to the reopening of Wallace & Co, owned by Greg Wallace of Masterchef, was just 3 weeks. Large items were built offsite and decorating was carried out overnight to minimise disruption. The restaurant was closed for just 3 days to ensure minimal impact to the business.

ecsec were extremely professional and pro active in their approach to our refurb, we had a very short space of time for Brian and his team to get our work done, not only did they complete the job within the time frame but they also stuck to budget. As is always the way with refurb, they came across a few issues but not only did they come up with quick practical solutions but most of these were at no extra cost. The whole process of our refurb was much less problematic than previous companies I have worked with. I would have no hesitation in using them again for future sites and recommending them.

At ecsec we pride ourselves on delivering projects to the highest quality within budget and on time. To find out more please get in touch.
